

2024 Reporting Year – eCQM Specifications – Known Issues Log

Issue ID	Status	Measure(s) Impacted	Type	Issue Description	Impact	Resolution	Related Issues
N/A	Unresolved	ePCo6	Logic	Health Care Organizations (HCO) where the delivery hospital and the NICU are within the same building, but operating under separate licenses (co-located), newborns are captured as a severe complication due to the transfer/discharge to acute care facility.	Potential impact for newborns who are discharge to a co-located NICU.	<p>There is no workaround for ePCo6.</p> <p>For the PCo6 chart abstracted measure (CAM), the following workaround has been identified. See co-located NICU Abstraction Guidance which will be published in the second half of 2023 (v2024A specification manual appendix G).</p>	<p>WikiUserQuestionId06bPc100042</p> <p>WikiUserQuestionId03Pc108710</p>
